Network Changes and Trunk Rearrangements:

The Emporia VA DMS100 switch will be the recipient office of traffic from the Drakes Branch VA T1000/DMS100 remote switch.

All CLECs, IXCs, IECs, ILEC, wireless carriers and paging carriers will need to provision new trunk groups to support direct end office trunking to the Emporia VA DMS100 switch. Carriers with existing trunk groups to this switch will need to augment if necessary.

All ASRs for the Emporia VA DMS100 switch must be received no later than **May 27, 2022** in order to provide sufficient time to migrate the traffic described above. All traffic must be moved on or after **July 28, 2022** based on LERG change notification. ASRs for the Emporia VA DMS100 switch must carry the project code of **DRBRVAXARS1**.

Upon decommissioning of the **Drakes Branch VA DMS10 remote switch**, the one (1) native code (NPA NXX) that currently resides in **the Drakes Branch VA DMS10 remote switch** will reflect the Drakes Branch VA T1000/ DMS100 remote switch which will home off of the Emporia VA DMS100 switch in the LERG.

Please adhere to industry standards using normal procedures that pertain to updates and changes to the LERG for all NXXs subject to the retirement of the Drakes Branch VA DMS10 remote switch and subsequent rehome to the Emporia VA DMS100 switch.

For inquiries related to the proposed network reconfiguration, or to arrange a meeting with Verizon Network Engineering and Planning personnel, please contact your Verizon Account Manager. We look forward to working with your team to enable uninterrupted service during the network redesign and transitioning of your traffic.
