Subject : Verizon Partner Solutions Industry Letter: Roslyn NY Switch Retirement

PLEASE NOTE:

- All references to the Roslyn NY DMS switch are associated with CLLI code RSLNNYRODS0 and will not be repeated throughout this letter.
- All references to the Deerpark NY CS2k switch are associated with CLLI code DRPKNYDPPS0 and will not be repeated throughout this letter.

As set out in the Verizon New York Public Notice of Network Change under Rule 51.329(a), dated December 1, 2022, on or after July 3, 2023, the Roslyn NY DMS switch will be retired and removed from the Verizon network as part of ongoing efforts to modernize the network.

General Information: The Exchange Codes (NXXs) in Numbering Plan Area (NPA) 516 currently residing in the Roslyn NY DMS switch (see list in Table B below) will be moved to the Deer Park NY CS2k switch (see details in Table A below).

The native NPA NXXs belonging to the Roslyn NY DMS switch will be rehomed upon decommissioning of the switch and reflected in the Local Exchange Routing Guide (LERG) for the Deer Park NY CS2k switch. This will occur on or after July 3, 2023.

Table A

	From	To
Entity	Roslyn RODS0	Deerpark DPPS0
CLLI	RSLNNYRODS0	DRPKNYDPPS0
Product	DMS	CS2k
Location	277 Warner Avenue Roslyn, NY 11576	85 West Second Street Deer Park, NY 11729
Point Code	247 041 005	247 041 029
NXX Type	EOC	EOC
OCN	9104	9104
Rate Center LATA	132	132
Rate Center	N4	LI32
State	NY	NY

Table B

NPA	NXX	TYPE	Switch
516	299	EOC	RSLNNYRODS0
516	484	EOC	RSLNNYRODS0
516	621	EOC	RSLNNYRODS0
516	625	EOC	RSLNNYRODS0
516	626	EOC	RSLNNYRODS0
516	629	EOC	RSLNNYRODS0
516	686	EOC	RSLNNYRODS0
516	-----	EOC	Intentionally left blank

Network Changes and Trunk Rearrangements:

The Deer Park NY CS2k switch will be the recipient office of traffic migrated from the Roslyn NY DMS switch. Traffic bound

for the codes listed in Table B will be delivered via the Deer Park DP03T Tandem (DRPKNYDP03T intra-lata SHA / DRPKNYDP03T inter-lata FG Access SHA).

After all traffic is migrated off the Roslyn DMS switch, this switch will be retired and removed from the network.

CLECs, IXCs, IECs, wireless carriers, and paging carriers will need to secure new trunk groups built to the Deer Park NY CS2k switch or have existing trunk groups to that switch augmented. Carriers that have direct end office trunk (DEOT) with access connectivity in the Roslyn DMS switch will be required to reposition the codes to the Deer Park NY CS2k switch. All ASRs for the Deer Park NY CS2k switch must be received no later than May1, 2023 in order to provide sufficient time to migrate the traffic described above. All traffic must be moved by July 3, 2023 per LERG. All ASRs for the Deer Park NY CS2k switch must carry the project code of RSLNNYRODS0.

Please adhere to industry standards using normal procedures that pertain to updates and changes to the LERG for all NXXs subject to the retirement of the Roslyn NY DMS switch.

For inquiries related to the proposed network reconfiguration, or to arrange a meeting with Verizon Network Engineering and Planning personnel, please contact your Verizon Account Manager.

We look forward to working with your team to enable uninterrupted service during the network redesign and transitioning of your traffic.
