## Subject : Verizon Partner Solutions Industry Letter: Allentown, MD 5E Switch Retirement

### PLEASE NOTE:

- All references to the Allentown MD 5E switch are associated with CLLI code ALTWMDATDS0 and will not be repeated throughout this letter.
- All references to the Annapolis MD C20 switch are associated with CLLI code ANNPMDANPS1 and will not be repeated throughout this letter.

As set out in the Verizon Maryland LLC Public Notice of Network Change under Rule 51.329(a), dated December 01, 2022, on or after July 03, 2023 the Allentown MD 5E switch will be retired and removed from the Verizon network.

**General Information:** The Allentown MD 5E switch will be replaced by the Annapolis MD C20 switch. See details in Table A.

## Table A

| Description      | From                                     | To  |
|------------------|--|---|
| Office Name      | Allentown                                | Annapolis                                 |
| CLLI Code        | ALTWMDATDS0                              | ANNPMDANPS1                               |
| Switch Type      | 5E                                       | C20                                       |
| Location         | 3210 Tucker Road<br>Allentown, MD 20744  | 9 Northwest Street<br>Annapolis, MD 21401 |
| Point Code       | 246 193 112                              | 246 192 002                               |
| NXX Type         | EOC                                      | EOC                                       |
| OCN              | 9212                                     | 9213                                      |
| Rate Center LATA | 236                                      | 238                                       |
| Rate Center      | WSHNGTNZN5,<br>WSHNGTNZN6,<br>WSNGTNZN16 | ANNAPOLIS                                 |
| State            | MD                                       | MD  |

The Exchange Codes (NXXs) in Numbering Plan Areas (NPA) 301 currently residing in the Allentown MD 5E switch will be rehomed upon decommissioning of the switch and reflected in the Local Exchange Routing Guide (LERG) on or after July 03, 2023. See details in Table B

## Table B

| NPA | NXX | TYPE | Switch   |
|-----|-----|------|----------|
| 301 | 234 | EOC  | Allenton |
| 301 | 248 | EOC  | Allenton |
| 301 | 265 | EOC  | Allenton |
| 301 | 297 | EOC  | Allenton |
| 301 | 433 | EOC  | Allenton |
| 301 | 449 | EOC  | Allenton |

### Network Changes and Trunk Rearrangements:

The Annapolis C20 switch will be the recipient office of traffic migrated from the Allentown MD 5E switch. Traffic to be migrated to the Annapolis MD C20 switch includes all of the traffic currently handled by the Allentown MD 5E switch including,

but not limited to, Inter-LATA access traffic (including Feature Group B and D traffic), and Intra-LATA and local traffic (including CLEC, IEC, wireless and Verizon sector end office switched traffic). After all traffic is migrated off of the Allentown MD 5E, this switch will be retired and removed from the network.

CLECs, IXCs, IECs, ILEC, wireless carriers and paging carriers will need to provision new trunk groups built to the Annapolis MD C20 switch or have existing trunk groups to that switch augmented if necessary. Carriers that have direct end office trunks (DEOT) with access connectivity in the Allentown MD 5E switch will be required to reposition the codes to the Annapolis MD C20 switch.

All ASRs for the Annapolis MD C20 switch must be received no later than **May 22, 2023** to provide sufficient time to migrate the traffic described above. All traffic must be moved on or after **July 03, 2023** based on LERG change notification. ASRs for the Annapolis MD C20 switch must carry the project code of **ALTWMDATRP0**.

Upon decommissioning of the Allentown MD 5E switch, the six (6) NPA NXXs that currently reside in the Allentown MD 5E switch will reflect the Annapolis MD C20 switch in the LERG.

Submission of disconnect ASRs to Verizon for the Allentown MD 5E switch are required immediately after the re-homing of traffic is complete.

Please adhere to industry standards using normal procedures that pertain to updates and changes to the LERG for all NXXs subject to the retirement of the Allentown MD 5E switch.

For inquiries related to the proposed network reconfiguration, or to arrange a meeting with Verizon Network Engineering and Planning personnel, please contact your Verizon Account Manager.

We look forward to working with your team to enable uninterrupted service during the network redesign and transitioning of your traffic.
