Network Changes and Trunk Rearrangements:

The Pearl Street NY C20 switch will be the recipient office of traffic migrated from the West 36th Street NY DMS switch. Traffic bound for the codes listed in Table B will be delivered via the 13th Street NY 06T 5E tandem local and LD FG (NYCMNY1306T intra-lata SHA / inter-lata FG Access SHA).

After all traffic is migrated off the West 36th Street NY DMS switch, this switch will be retired and removed from the network.

CLECs, IXCs, IECs, wireless carriers, and paging carriers will need to secure new trunk groups built to the Pearl Street NY C20 switch or have existing trunk groups to that switch augmented. Carriers that have direct end office trunk (DEOT) with access connectivity in the West 36th Street NY DMS switch will be required to reposition the codes to the Pearl Street NY C20 switch.

All ASRs for the Pearl Street NY C20 switch must be received no later than October 1, 2023 to provide sufficient time to migrate the traffic described above. All traffic must be moved by December 1, 2023. All ASRs for the Pearl Street NY C20 switch must carry the project code of NYCMNY36DS0DS.

Please adhere to industry standards using normal procedures that pertain to updates and changes to the LERG for all NXXs subject to the retirement of the West 36th Street NY DMS switch.
