Subject : Verizon Partner Solutions Industry Letter: Chase, MD (DMS) Switch Retirement

PLEASE NOTE:

- All references to the Chase MD DMS switch are associated with CLLI code CHASMDCHDS0 and will not be repeated throughout this letter.
- All references to the Annapolis MD C20 switch are associated with CLLI code ANNPMDANPS1 and will not be repeated throughout this letter.

As set out in the Verizon Maryland LLC Public Notice of Network Change Under Rule 51.329(a), dated July 12, 2023, on or after March 01, 2024, the Chase MD DMS switch will be retired and removed from the Verizon network.

General Information: The Chase MD DMS switch will be replaced by the Annapolis MD C20 switch. See details in Table A.

The Exchange Codes (NXXs) in Numbering Plan Area (NPA) 410 currently residing in the Chase MD DMS switch will be rehomed upon decommissioning of the switch and reflected in the Local Exchange Routing Guide (LERG) on or after March 01, 2024. See details in Table B

Table A

Description	From	To
Office Name	Chase	Annapolis
CLLI Code	CHASMDCHDS0	ANNPMDANPS1
Switch Type	DMS	C20
Location	6210 Ebenezer Road Chase, MD 21027	9 Northwest Street Annapolis, MD 21401
Point Code	246 192 047	246 192 002
NXX Type	EOC	EOC
OCN	9212	9212
Rate Center LATA	238	238
Rate Center	CHASE	ANNAPOLIS
State	MD	MD

Table B

NPA	NXX	TYPE	Switch
410	335	EOC	Chase
410	344	EOC	Chase

Network Changes and Trunk Rearrangements:

The Annapolis MD C20 switch will be the recipient office of traffic migrated from the Chase MD DMS switch. Traffic to be migrated to the Annapolis MD C20 switch includes all of the traffic currently handled by the Chase MD DMS switch including, but not limited to, Inter-LATA access traffic (including Feature Group B and D traffic), and Intra-LATA and local traffic (including CLEC, IEC, wireless and Verizon sector end office switched traffic). After all traffic is migrated off of the Chase MD

DMS switch, this switch will be retired and removed from the network.

All CLECs, IXCs, IECs, ILEC, wireless carriers and paging carriers will need to provision new trunk groups to support direct end office trunking to the Annapolis MD C20 switch. Carriers with existing trunk groups to this switch will need to augment if necessary.

All ASRs for the Annapolis MD C20 switch must be received no later than **January 19, 2024** to provide sufficient time to migrate the traffic described above. All traffic must be moved on or after **March 01, 2024** based on LERG change notification. ASRs for the Annapolis MD C20 switch must carry the project code of **CHASMDCHRP0**.

Upon decommissioning of the Chase MD DMS switch, the two (2) NPA NXXs that currently reside in the Chase MD DMS switch will reflect the Annapolis MD C20 switch in the LERG.

Submission of disconnect ASRs to Verizon for the Chase MD DMS switch are required immediately after the re-homing of traffic is complete.

Please adhere to industry standards using normal procedures that pertain to updates and changes to the LERG for all NXXs subject to the retirement of the Chase MD DMS switch.

For inquiries related to the proposed network reconfiguration, or to arrange a meeting with Verizon Network Engineering and Planning personnel, please contact your Verizon Account Manager.

We look forward to working with your team to enable uninterrupted service during the network redesign and transitioning of your traffic.
