Subject : Verizon Partner Solutions Industry Letter: Orangeburg NY 5E Switch Retirement

PLEASE NOTE:

- All references to the Orangeburg NY 5E switch are associated with CLLI code ORBGNYOBDS0 and will not be repeated throughout this letter.
- All references to the Pleasantville NY DMS switch are associated with CLLI code PSVLNYPVPSA and will not be repeated throughout this letter.

As set out in the Verizon New York LLC Public Notice of Network Change under Rule 51.329(a), dated August 16, 2023, on or after April 1, 2024 the Orangeburg NY 5E switch will be retired and removed from the Verizon network as part of ongoing efforts to modernize the network.

General Information: The Exchange Codes (NXXs) in Numbering Plan Area (NPA) 845 currently residing in the Orangeburg NY 5E switch (see list in Table B below) will be moved to the Pleasantville NY DMS switch (see details in Table A below).

The native NPA NXXs belonging to the Orangeburg NY 5E switch will be rehomed upon decommissioning of the switch and reflected in the Local Exchange Routing Guide (LERG) for the Pleasantville NY DMS switch. This will occur on or after April 1, 2024.

Table A

	From	To
Entity	Orangeburg OBDS0	Pleasantville PVPSA
ClIi	ORBGNYOBDS0	PSVLNYPVPSA
Product	5E	DMS
Location	23 Kings Highway Orangeburg, New York 10962	465 Marble Avenue Pleasantville, New York 10570
Point Code	247 043 008	247 043 021
NXX Type	EOC	EOC
OCN	9104	9104
Rate Center Lata	132	132
Rate Center	Piermont R14	PLEASANTVL
State	NY	NY

Table B

NPA	NXX	TYPE	Switch
845	359	EOC	ORBGNYOBDS0
845	365	EOC	ORBGNYOBDS0
845	398	EOC	ORBGNYOBDS0
845	680	EOC	ORBGNYOBDS0

Network Changes and Trunk Rearrangements:

The Pleasantville NY DMS switch will be the recipient office of traffic migrated from the Orangeburg NY 5E switch. Traffic

bound for the code listed in Table B will be delivered via the White Plains 08T Tandem (WHPLNYWP08T intra-lata SHA / WHPLNYWP08T inter-lata FG Access SHA).

After all traffic is migrated off of the Orangeburg NY 5E switch, this switch will be retired and removed from the network.

CLECs, IXCs, IECs, wireless carriers and paging carriers will need to secure new trunk groups built to the Pleasantville NY DMS switch or have existing trunk groups to that switch augmented. Carriers that have direct end office trunk (DEOT) with access connectivity in the Orangeburg NY 5E switch will be required to reposition the codes to the Pleasantville NY DMS switch.

All ASRs for the Pleasantville NY DMS switch must be received no later than February 1, 2024 to provide sufficient time to migrate the traffic described above. All traffic must be moved by April 1, 2024 per LERG. All ASRs for the Pleasantville NY DMS switch must carry the project code of **ORBGNYOBDS0**.

Please adhere to industry standards using normal procedures that pertain to updates and changes to the LERG for all NXXs subject to the retirement of the Orangeburg NY 5E switch.

For inquiries related to the proposed network reconfiguration, or to arrange a meeting with Verizon Network Engineering and Planning personnel, please contact your Verizon Account Manager.

We look forward to working with your team to enable uninterrupted service during the network redesign and transitioning of your traffic.
