As set out in the Verizon Pennsylvania LLC Public Notice of Network Change Under Rule 51.329(a), dated February 29, 2024, on or after January 2, 2025, the Larchmont PA 5ESS switch will be retired and removed from the Verizon network as part of ongoing efforts to modernize the network.

Network Changes and Trunk Rearrangements:

The Market PA C20 switch will be the recipient office of traffic migrated from the Larchmont PA 5ESS switch. Traffic bound

for the codes listed in Table B will be delivered via the Market 90T Tandem (PHLAPAMK90T).

After all traffic is migrated off the Larchmont PA 5ESS switch, this switch will be retired and removed from the network.

CLECs, IXCs, IECs, wireless carriers, and paging carriers will need to secure new trunk groups built to the Market PA C20 switch or have existing trunk groups to that switch augmented. Carriers that have direct end office trunk (DEOT) with access connectivity in the Larchmont PA 5ESS switch will be required to reposition the codes to the Market PA C20 switch.

All ASRs for the Market PA C20 switch must be received no later than October 17, 2024 to provide sufficient time to migrate the traffic described above. All traffic must be moved by January 2, 2025. All ASRs for the Market PA C20 switch must carry the project code of **LARCPALMDS0**.

Please adhere to industry standards using normal procedures that pertain to updates and changes to the LERG for all NXXs subject to the retirement of the Larchmont PA 5ESS switch.
