### Network Changes and Trunk Rearrangements:

The Syracuse, NY PEO switch will be the recipient office of traffic migrated from the Massena, NY DMS100 switch. Traffic bound for the codes listed in Table B will be delivered via the Syracuse, NY Tandem (SYRCNYSU50T intra-lata SHA/SYRCNYSU50T inter-lata FG Access SHA).

After all traffic is migrated off of the Massena, NY DMS100 switch, it will be retired and removed from the network. CLECs, IXCs, IECs, wireless carriers and paging carriers will need to secure new trunk groups built to the Syracuse, NY PEO switch or have existing trunk groups to that switch augmented. Carriers that have direct end office trunks (DEOT) with access connectivity in the Massena, NY DMS100 switch will be required to reposition the codes to the Syracuse, NY PEO switch.

All ASRs for the Syracuse, NY PEO switch must be received no later than November 22, 2024 to provide sufficient time to migrate the traffic described above. All traffic must be moved by January 2, 2025. All ASRs for the Syracuse, NY PEO switch must carry the project code of **MSSNNYMQDS0**.

Please adhere to industry standards using normal procedures that pertain to updates and changes to the LERG for all NXXs subject to the retirement of the Massena, NY DMS100 switch.
