

**SHORT TERM PUBLIC NOTICE UNDER RULE 51.333(a)**

January 9, 2026

**Carrier:** Verizon New York Inc., 140 West Street, New York, NY 10007

**Contact:** For additional information on these planned network changes, please contact:

Marcia Chaffin  
Verizon Network Engineering  
385 Myles Standish Blvd.  
Taunton, MA 02780  
978-552-3638

Michael Childs  
Associate Director  
Verizon Network Engineering  
5055 North Point Pkwy.  
Alpharetta, GA 30022  
469-497-4466

**Implementation Date:** On or after March 9, 2026

**Planned Network Change(s) will occur at the following locations in New York:**

| <b>Verizon Central Office</b> | <b>Address</b>                               | <b>CLLI</b>        |
|-------------------------------|--|--------------------|
| White Plains NY 5E Switch     | 111 Main Street<br>White Plains, NY 10601    | <b>WHPLNYWPDS0</b> |
| Pleasantville NY CS2k Switch  | 465 Marble Avenue<br>Pleasantville, NY 10570 | <b>PSVLNYPVPSA</b> |

**This notice may also be viewed at** <http://www.verizon.com/about/terms-conditions/network-disclosures>

**PLEASE NOTE:**

- All references to the White Plains NY 5E switch are associated with CLLI code WHPLNYWPDS0 and will not be repeated throughout this notice.
- All references to the Pleasantville NY CS2k switch are associated with CLLI code PSVLNYPVPSA and will not be repeated throughout this notice.

**Description of the Planned Network Change(s):**

The Verizon White Plains NY 5E switch, located at 111 Main Street, White Plains, NY 10601, will be retired and removed from the network after all traffic served by this switch is migrated to the Verizon Pleasantville NY CS2k switch, located at 465 Marble Avenue, Pleasantville, NY 10570. All traffic to be migrated includes, but is not limited to, Inter-LATA (ACCESS/FG-B-D/CLEC/IXC), wireless, and paging traffic.

**Description of Reasonably Foreseeable Impact(s) of the Planned Change(s):**

Competitive local exchange carriers (CLECs), interexchange carriers (IXCs, IECs), wireless carriers, and paging carriers will need to secure new trunk groups built to the Pleasantville NY CS2k switch or have existing trunk groups to that switch augmented. Carriers that are code holders for access connectivity in the White Plains NY 5E switch will be required to reposition the codes to the Pleasantville NY CS2k switch.

All ASRs for the Pleasantville NY CS2k switch must be received no later than January 31, 2026, to provide sufficient time to migrate the traffic described above. These direct end office trunk (DEOT) interconnections will support traffic migration for the White Plains NY 5E switch prior to its eventual decommissioning. Local Exchange Routing Guide (LERG) change effective dates will be posted prior to decommissioning of the White Plains NY 5E switch (**on or after March 31, 2026**). This will serve to guide interconnect re-routes of traffic for the twenty-eight (28) native codes currently served by the White Plains NY 5E switch to reflect the Pleasantville NY CS2k switch as the new home switch.
